APPENDIX: 3

Dear student

Alcohol abuse and risky sexual behaviour of male adolescents is increasingly becoming a concern.

A research team at the University of Fort Hare (Alice Campus) is currently investigating the impact of alcohol on the sexual behaviour of male adolescents.

Would you kindly assist in this endeavor? It will take approximately 30 minutes of your time to complete this questionnaire.

Please keep the following in mind when completing the questionnaire:

There are no correct or incorrect answers- all we ask for is your honest answer;
The most questions you can answer by putting a cross in the relevant code;
In some cases you will have to write a few words or put a number in the relevant block;
Do not put a cross in more than one block per question;
If you would like to change an answer, please do so by clearly erasing using an eraser;
After you have completed the questionnaire, please hand it back to the person from whom you received it.

PLEASE NOTE:

You can answer each question frankly and with confidence. Your completed questionnaires will be put in a sealed container. They will be analyzed statistically and after the analysis these questionnaires will be destroyed. Your response will never be made known to anybody. No lecturer or parent or friend of yours will at any time have access to your questionnaires.

Thank you for your kind operation.
